Namaste \nah-mah-stay\ (Sanskrit) Greeting of great respect, celebrating the interdependence of all living things

Seasonal/Internship Solar PV Installation Position

Namaste Solar is interested in hiring individuals to join our solar PV installation team for a seasonal/internship position from August through December. This is the perfect position for someone looking for a way to get into the solar industry with little to no previous experience! We are looking for well-rounded team members who are committed to sustainability and are passionate about solar energy. If you're interested in joining the Namaste Solar team, we recommend that you review our website (www.namastesolar.com) thoroughly in order to learn more about us. The ideal candidate for Namaste Solar Electric will be an individual who is:

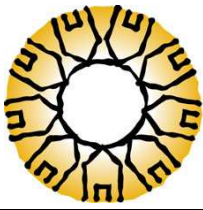

- Interested in eventually having a long-term career in the solar industry.
- Well-rounded and capable of assuming multiple types of responsibilities.
- Values-oriented: Namaste Solar Electric is dedicated to the betterment of our planet through progressive environmental and social change. Our work is motivated through a desire to better the world in which we live. We are looking for team members whose personal values are in alignment with ours.
- Positive and team-oriented. Ability to work well with others is of paramount importance.
- An excellent communicator and self motivated.
- Experienced working with your hands and experienced in electrical work, construction, or carpentry. You must be comfortable standing and working on roof tops in both hot and cold weather.
- Comfortable with occasionally working long hours as required in order for the installation crew to complete the project for the day.

DESIRED QUALIFICATIONS

- Good at problem solving and working with tools
- Comfortably able to lift 75lbs, climb ladders, and work on roof tops
- A definite plus if you have an understanding of solar PV systems & installation, electrical wiring, sizing conduit, sizing wire, and bending pipe
- Previous construction or foreman experience is also helpful
- Excellent teamwork skills – ability to foster a positive team environment through collaborative decision making

If this sounds like you, please send a resume and cover letter that answers the following questions:

- What are your long-term career interests? Are you truly interested in pursuing a career in the solar PV industry above all else? We are looking for individuals who will benefit from what they learn over the season.
